

Outdoor Cat Care Guide

Exterior Materials

Natural Woods

Redwood & Cedar

- resists rot & insects
- durable

Untreated Woods

Avoid pressure & chemically treated woods

Plywood

Use exterior or marine grade plywood with no toxic additives

Non-toxic Finishes

Opt for water-based, non-toxic options for a safe finish

Insulation

Cat house insulation should never be accessible by the cat

Chemical free polyester batting

Cotton or cotton blend batting recommended

Cured foam board insulation

Heating

*****DO NOT USE*****
Blankets, Towels, Newspaper, etc.

Straw

PVC or vinyl flooring

Cat-safe heating pad

Food

Good ingredients yet still cost effective

Mix of dry & wet

High protein, 26+%

Cat will eat it
